PERSONAL STATEMENT

Hardware Technician and Developer with 5 years of daily Linux experience. Skilled in PC assembly, command-line system diagnostics, and Python/Lua scripting. Seeking to apply strong problem-solving skills and terminal fluency to desk-side IT support, workstation maintenance, and user ticket resolution.

SKILLS

- Systems & OS: Linux (Debian/Ubuntu & Arch distributions), macOS, Windows
- Hardware Support: PC Assembly & Troubleshooting, Touch Table & Display Integration, Kiosk Hardware
- Languages & Scripting: Python, Lua, Bash/Shell, JavaScript, TypeScript, C
- DevOps & Infrastructure: Docker, Nginx, SQLite, Git, Neovim

PROJECTS

Tashio Tempo (Multi-Platform Software Development & Documentation) – tashio.dev | [Github](#)

- Architected and maintained a cross-platform desktop application built in Lua and LÖVE, engineering automated build steps to compile target executables across Linux, Windows, and macOS.
- Documented over 600 episodes of live software development and system troubleshooting on [YouTube](#), demonstrating technical communication and workflow transparency.
- Implemented custom file handling and data serialization algorithms for low-level binary saving, loading, and local state management.

Saltomanga (Client Portfolio & E-Commerce Platform) – saltomanga.com

- Designed, built, and containerized a full-stack e-commerce platform for an independent artist client, using SvelteKit, SQLite, and Docker for reliable deployment on a Linux server environment.
- Integrated secure payment processing via the Stripe API, handling webhooks, checkout sessions, and transaction verification for physical product sales.
- Created database schema, file/asset storage, and backend API routing to support the shop and checkout flow.

Tak: A Beautiful Game (CS50x Capstone Project) – [Web Deployment](#) | [Github](#)

- Developed a two-player cross-platform digital board game in Lua and the LÖVE engine as a final capstone project for Harvard's CS50x course.
- Packaged and distributed standalone executables for Linux, Windows, and macOS, managing cross-platform engine bundling and deployment.

PROFESSIONAL EXPERIENCE

Ideum

Exhibit Technician | February 2026 - Present

- Assemble, wire, and configure integrated PC hardware, multitouch tables, interactive displays, and custom kiosk systems.
- Perform system diagnostics and hardware troubleshooting to ensure reliability before global deployment.
- Utilize shop tools and technical documentation to assemble internal components, manage internal wiring, and connect peripheral devices.
- Provide technical support and troubleshooting guidance to cross-departmental teams and end users, resolving hardware and system issues in a fast-paced production environment.

Finding Focus Productions

Owner/Operator | 2014 – Present

- Independently manage all aspects of a multimedia production business, from client relationships and project scoping to technical execution and delivery.
- Design, build, and host custom web solutions and digital portfolios for select clients, providing ongoing technical support and site maintenance.

Center for Action and Contemplation

Digital Imaging Technician/Video Editor | July 2018 – August 2020

- Managed production gear, post-production workflow, and media library systems for an educational nonprofit's video content.

BeWellINM

Multimedia Content Producer | January 2014 – May 2014

- Produced media for a state health insurance program under strict public-sector deadlines.

New Mexico Department of Workforce Solutions

Multimedia Content Producer | September 2012 – October 2014

- Wrote, produced, and edited video content and tutorials for a state government agency, working within public-sector approval and compliance processes.

TECHNICAL CERTIFICATIONS

- Deep Dive Full-Stack Bootcamp – Central New Mexico Community College ([Certificate](#)) | 2024
- CS50x: Introduction to Computer Science – HarvardX ([Certificate](#)) | 2023
- FAA Part 107 Remote Pilot Certification – Unmanned Aircraft General - Small (UAG) | 2021

EDUCATION

- Bachelor of Arts in Film & Digital Arts – University of New Mexico | August 2012 – December 2016
